

2.5.1: The Institution adheres to the academic calendar for the conduct of Continuous Internal Evaluation and ensures that it is robust and transparent.

Evaluation is the heart of examination, and examination is essential for assessing pupils. Our college conducts exams on a regular basis, in addition to educational activities. This article discusses examination details and proposed improvements to strengthen it. Since 2009, MUHS has abolished internal assessment examinations at the college; nonetheless, in our college, we conduct term end and preliminary exams on a regular basis to improve students' academic performance, which has a positive influence on overall university outcomes. The Institution follows the academic calendar for conducting Continuous Internal Evaluations and guarantees that they are rigorous and transparent.

The university's yearly examination is performed in accordance with the guidelines established by MUHS, Nashik. Every year, university yearly examinations are held twice: May-June and November-December. All topic question banks have been uploaded to the college's ERP software. In addition, students who failed university exams are retaking their preliminary exams. (For repeaters) We are also organising mid-term exams for all students in the future academic year to help them perform better.
