### **7.1.3: Portray the performance of the Institution in one area distinctive to its priority and thrust**

Shri Chamundamata Homoeopathic Medical College, Jalgaon has portrayed the performances of the institution in one area distinctive to its priority and thrust.

The aim of the institution is to make and empower students in perceiving knowledge, values and social responsibilities and help and guide the students to achieve the goal and excellence in field. So they can prepare to face the challenges in this competitive world.

In our institution, we always try to learn some new techniques, skills, so we can give effective support to the students for the purpose of learning, practicing and for research.

In the last five years, the institution has dedicated its efforts to enhance the resources for research and thesis for interns

The vision of the institution is to polishing and innovating homeopathic education and its application. For this, colleges make it mandatory for fourth year students and interns to make clinical case presentations by selecting surgical or medical cases. According to the rules of university, students and interns have to make a case for departments like, medicine, surgery, obstetrics and gynaecology and paediatrics.

#### **VILLAGE ADOPTION:**

The college adopted villages namely, Chioncholi, Dhanwad, Umale, Kusumba, Raypur. In all these villages, we periodically arrange medical camps and health checkups to increase the practical knowledge of students. In these camps and health related activities, students get to know about the health problems in the village population and we try to give the best treatment to them. And we try to make them aware about health related problems and personal hygiene.

During covid-19 epidemic our institution initiated Ars-alb distribution in these village as well as run covid-19 awareness programme for the betterment of villager's health. We arrange camps every year by group of Interns under the guidance of senior medical officer of our institute. Camps are arranged at the interval of 3-4 months with the permission of village's.

**1. Community Health Initiatives:**

- The institution runs various community outreach programs where it applies its research findings to improve public health. These initiatives not only benefit the local community but also provide practical exposure to students, aligning with the institution's focus on holistic education.

**2. Collaborations and Partnerships:**

- The college has established collaborations with other research institutions and organizations in the field of homoeopathy. These partnerships enhance research opportunities and contribute to the advancement of homoeopathic medicine.

**3. Student Involvement and Innovation:**

- Students are encouraged to take part in research projects, fostering an environment of innovation and inquiry. Many student-led projects have received accolades and recognition for their novel approaches and practical applications.
